

LAST NIGHT A

SAVED MY LIFE

**ONE YEAR,
ONE MISSION:
ONE HUNDRED WELLS**

**HAVE A DRINK
ON US CAMPAIGN**

INTRODUCING HAVE A DRINK ON US CAMPAIGN

INDEPENDENT

We support the mission to alleviate the World Water Crisis.

EFFICIENT & ACCOUNTABLE

Uniquely, our water partner manages all the projects with country nationals & local workforce.

OVER 61,405

People are already benefitting from the 91 wells funded by vital donations from our campaign partners.

Last Night a DJ Saved My Life Foundation is passionate about bringing clean water to those currently living without it. In 2023 we are focusing our efforts on the goal of reaching 100 wells. Join our mission to help alleviate the World Water Crisis. The concept is simple – clean water for all!

#HaveADrinkOnUs

MISSION STATEMENT

**To help alleviate the World Water Crisis.....
the concept is simple, clean water for all!**

Have a drink on us campaign's mission is to couple the best and the most effective water solutions in the world with the businesses and individuals who are committed to being in the driving seat of ending the world water crisis. We strive to learn, adapt and evolve the most current and effective solutions available for the problems and situations being faced, ensuring every penny spent reaches its highest potential.

£2400 will fund one of our bore-well projects that will give an entire community access to safe, clean water. You will receive details of the well that your donation has built, including images & GPS coordinates of the village. A plaque will also be attached. For more information please email info@lastnightadsavedmylife.org

**NO MATTER HOW BIG OR SMALL, YOUR SUPPORT
REALLY WILL HELP TRANSFORM LIVES**

WHY LAST NIGHT A DJ SAVED MY LIFE?

LNADJ deliver the most accountable and efficient clean water projects to communities who need it the most

We conduct health and hygiene education with every water project built.

Education

Community members are given tools and training in basic well maintenance to ensure upkeep.

Maintenance

We take a small fee from the community to cover bigger maintenance issues. This creates a sense of ownership and dramatically increases sustainability.

Community Ownership

We establish partnerships with local organisations in order to utilise local knowledge, language and experience to better reach those in need.

Local Partners

We ensure women are involved at all stages of their communities project implementation. This can increase the effectiveness of water projects 6-7 times (UN).

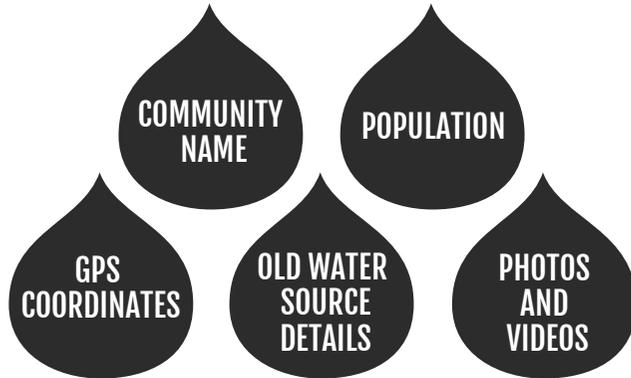

Women's Involvement

LNADJ and partners have experience, local knowledge and established in-country partners in many of the worlds most water-stressed areas, including India, Uganda, Mozambique, Malawi ,The Gambia & South Sudan.

WHY LAST NIGHT A DJ SAVED MY LIFE?

We ensure that for every project and community reached through our partnership, you will receive the following details:

- We want each and every project that is brought to fruition to be celebrated and that's why we offer our unique flexible approach
- You will be updated regularly on the progress of your well
- You can even visit the communities and see personally the incredible difference you have made

THE ISSUE

771 million people in the world do not have access to safe water. This is roughly one in nine of the world's population

Half of the world's hospital beds are filled with people suffering from water related diseases (UN)

The water and sanitation crisis claims more lives through disease than any war claims through guns (UN)

443 million school days are lost each year due to water related illness (WHO/UNICEF)

Women and children collectively walk 200 million miles a day to collect, often dirty and unsafe, water

1.5 million children die every year due to water related diseases

THE DIFFERENCE YOU WILL MAKE

Each project provides safe, clean drinking water to communities who have never before had this basic human right

THE IMPACT

For every \$1 invested in water and sanitation there is an economic return of between \$3 - \$34.

World Health Organisation

When children no longer have to collect water they can spend more time in education.

The introduction of a clean water source to a community saves thousands of hours every week previously lost to water collection.

The time freed up from water collection means communities have more time for work, therefore increasing productivity.

Hygiene education and practices dramatically improve the health of the community, heavily reducing the amount of water-related diseases.

Access to clean water transforms lives, creates opportunities and lays the foundations to a brighter future.

WE NEED YOU!

Whether you're a DJ, producer, dance music lover, record label or company, no matter how big or small, you can get involved and really help us to achieve our goal. Clean water is a basic human right yet 663 million people don't have it. What are you waiting for? Join the Have A Drink On Us campaign - together we can make a difference!!

FUND A DEDICATED WELL

Sponsoring a well and giving water to an entire community is incredibly satisfying. Not only that, it is affordable and will have a huge impact on the community. With every project we complete we provide you, as a donor, with a GPS of your project, photos, a detailed pack including a case study from a member of the community and a personalised plaque on the well. The change to the community's future is immeasurable. Be the difference!

- 💧 **£2400 one off payment** will immediately commission the building of your own personalised well.
- 💧 **£200 per month** for 12 months will fund your own dedicated well affecting a community of at least 1000 in India or 350 in Africa giving them access to clean water for 10 yrs.

DONATE TO A PROJECT

£100 donation to a project would give over 40 people access to fresh water in India or 14 people in Africa for 10 yrs.

£20 a month for 12 months would help provide fresh water to 100 people in India or 35 people in Africa for 10yrs.

£12 donation will provide fresh water to at least 5 people in India or 1 person in Africa for 10 yrs.

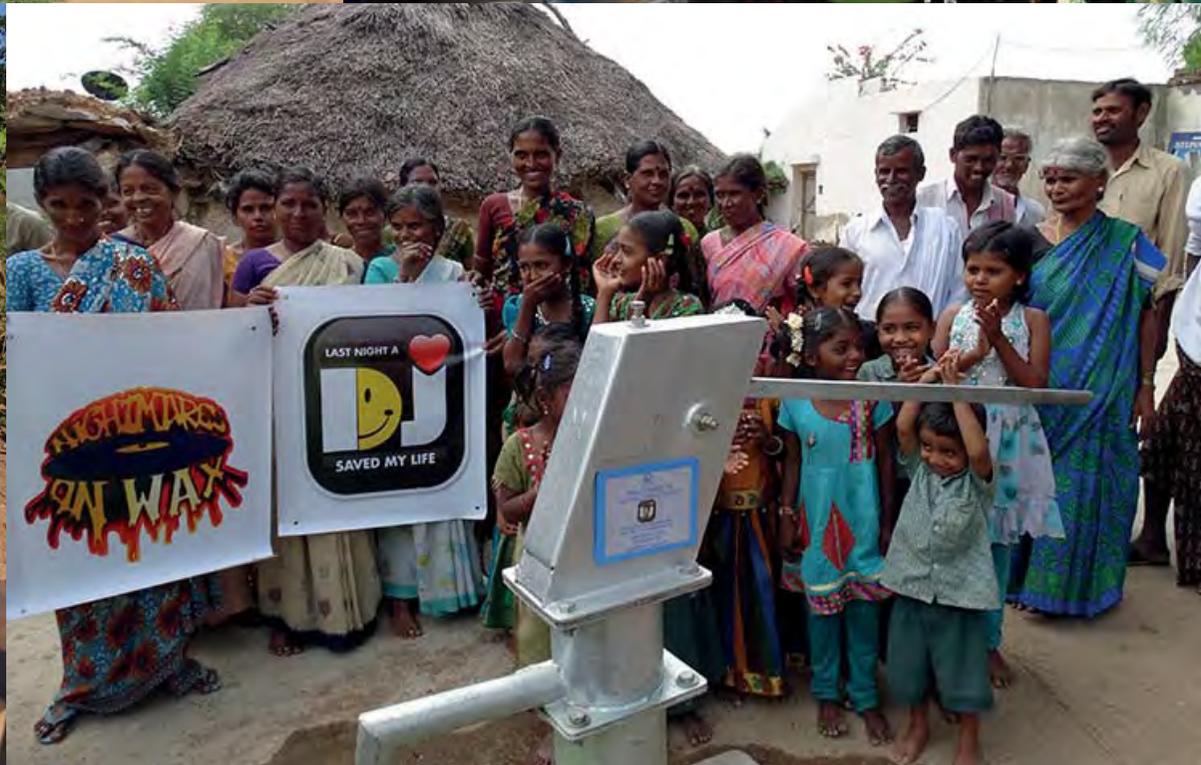

Every donation made goes straight towards our latest project, building a fresh water supply in a community in need of water.

To donate funds from anywhere in the world please visit:
